

PTAs have a responsibility to identify and promote awareness of safety problems in the school community and, in collaboration with others, to help develop solutions.

Safety is a growing concern for the public. Preparedness for emergencies and disasters, as well as the prevention of unintentional injuries (accidents), a serious concern of those who care for children in the home, at school, and in the community.

Activities to promote safety are closely related to and can be incorporated in all PTA interests.

WHAT TO DO

- Have president appoint a safety committee.
- Become familiar with PTA publications that may be free or available for purchase from the California State PTA office. For California State PTA Statements and Resolutions, refer to the *California State PTA Toolkit*. (All are obtainable from unit, council or district PTA presidents, service mailing CD; www.capta.org)
- Contact the council and/or district PTA for additional information.
- Establish an ongoing working relationship with the school district and safety agencies within the community (i.e., local branches of the National Safe Kids Coalition). Attend safety workshops/conferences and clinics.
- Research the facts on safety problems and regulations in the school and community. Interview school officials, student leaders, local police and fire officials, health departments, safety councils, automobile clubs, medical societies and others.
- Determine what safety instruction is included in the school curriculum, K-12, and adult education programs.
- Become familiar with the school district's and school site's state-mandated disaster preparedness program. Is it up-to-date, adequate and enforced?
- Cooperate with school authorities to inform the public of these programs (Disaster Preparedness and Crisis Response and Emergency Kit 7.11, 304).
- Suggest a neighborhood survey to discover toxic substance hazards and follow up with proper authorities for correction and implementation of safety programs.
- Cooperate with PTA program chairman to plan a safety program for at least one PTA meeting during the year. Secure guest speakers from community safety agencies. Make announcements and arrange displays, exhibits and posters at meetings.
- Sponsor parent education safety awareness programs.
- Keep informed about all safety legislation in local, state and federal government. Study measures regulating schools and residential areas.
- Share all information with unit, council, district PTA and California State PTA.
